Florigo from tna hydro-wash WTP 3

shear washing system

tna packaging & processing solutions

Florigo hydro-wash® WTP 3 is an advanced slice washing system that removes starch to prevent potato slices from sticking together and collects only full size potato slices that are then placed in a single layer for even frying. Reliable and works well in your smaller capacity production lines.

BENEFITS

Optimal preparation of potato slices by removing starch and collecting only full-size slices

Separates and isolates slices preparing them in a single layer for even frying.

Higher productivity with minimum maintenance required.

Separates starch that can be used in other applications and cleans water for reuse – lowering water consumption.

STANDARD FEATURES

- De-watering vibrator
- Water circulation system
- Water tank
- Stainless steel execution (exception fans, pumps, drives, valves, bearings, belts)

OPTIONAL FEATURES

- Starch recovery system

APPLICATIONS

- snacks

SPECIFICATIONS

Florigo hydro-wash® WTP 3	
model name	WTP VS 300
capacity slices kg/hr (lbs/hr)	<1200 (2645)
infeed height mm (in)	3050 (120)
outfeed height mm (in)	1645 (65)
outfeed width mm (in)	550 (22)
total length mm (in)	4545 (179)
total width mm (in)	2246 (88)
washing pump m3/hr (cfm)	60 (2119)
fresh water m3/hr (cfm) (wo. starch removal/1000kg (2205lbs) slices)	1.75 (62)
fresh water m3/hr (cfm) (with starch removal/per 1000kg (2205lbs) slices)	0.3 (11)
water content L (US gl)	ca. 800 (176)

All above specifications are subject to change and may differ according to the product. Please confirm when placing your order.
